

- 1) I copied pretty much all my code, the only parts I didn't copy were the parts that were already in the main section
- 2) Pretty much all of it, all my code from lab 3 was from lab 2 with some tweaks to fit the output,
- 3) Not really new parts, just tweaked already existing code to work with the multiples classes.
- 4) The ones with int will not work as it will change the output of the program with not decimal points
